OUR APPROACH

The City of Surrey's play-based preschool programs are designed to reflect the image of the child: one who is curious, capable, creative and confident. We look to inspire our children to work and learn both collaboratively and independently according to their interests. Our responsive programs align with the BC Ministry of Education Curriculum, and strive to set a foundation of success for the child, both in school and in life. In the City of Surrey, our Preschool approach provides:

- High quality and affordable programs
- Personalized learning
- Valuable social experiences

Preschool

Preschool programs are based on a responsive curriculum where the educators offer an exciting, reflective program based on children's interests. Our approach focuses on the five areas of healthy child development: social, emotional, physical, creative and cognitive. Our responsive approach includes various learning opportunities, engagement in open ended activities, free play and exploration-all concepts that align with the communication, thinking and social competencies that are the core of the new Provincial school curriculum.

For 3 year old programs the child must be 3 years old by December 31, 2019.

For 4 year old programs the child must be 4 years old by December 31, 2019.
